

LIGHT LINE® unique

LIGHT LINE® unique is a design foil into which it is possible to embed information that is invisible to the naked eye and only recognizable under a magnifying glass. The product offers manufacturers of brand name products the ability to reinforce their corporate identity without interfering with the overall design.

- Decoratively packaged brand-protecting microelements.
- All LIGHT LINE® designs can be used in combination with customized text and customer logos.
- Invisible to the naked eye, therefore no change to the existing appearance of the product design

The effective combination of marketing and brand security!
